Q7: Issues

Proposal is not compliant with principles of the Environment Protection Act 1970 and/or State Environmental Planning Policy	High
Energy and greenhouse gas emissions	Low
Existing site or Applicant's performance and compliance	High
Waste generation / storage / treatment	High
Design issues and proposed technology	Medium
Environmental management	High
Sustainability	Low
Other	Very High

Other (please specify)

There is often an unpleasant smell that is quite repulsive and makes me gag while I'm out walking anywhere from Walls Road, Werribee and in the direction of the Wests Road facility. I'm very concerned that expanding the tip will make this problem worse and make the area unliveable.

**Q9: Issue 1 (Optional)**

The issues of air pollution and odours coming from the facility are real. I feel that these are already problematic and reduce the quality of living in the area, to the point where the odours make me feel physically unwell. Expansion of the tip will surely make this problem worse and I feel this is terribly unfair to residents.

**Q10: Issue 2 (Optional)**

The unsightly "Tip Mountains" that spoil the otherwise beautiful landscape. We certainly don't need any more of these.

**Q14: Do you object or approve the proposal?**

Object,

Please provide an explanation

As mentioned already, I feel that air pollution and unbearable odours are massive problems that are not being dealt with adequately.
