PAGE 2: Your submission

Q7: Issues

Proposal is not compliant with principles of the Environment Protection Act 1970 and/or State Environmental Planning Policy	High
Energy and greenhouse gas emissions	High
Existing site or Applicant's performance and compliance	High
Waste generation / storage / treatment	Very High
Design issues and proposed technology	High
Environmental management	Very High
Sustainability	Very High
Other	Very High

Other (please specify)  
Enough is enough. the site should not be expanded but closed when at capacity. Alternative further away from a growing and spreading urban population should be found

Public comment submission: Wyndham Landfill application for works approval

**Q8: Potential impacts**

Ground water resources	Very High
Noise amenity	Very High
Health risks and/or hazards	Very High
Air (e.g. emissions, dust or odour)	Very High
Land and soil resources	Very High
Surface water resources	Very High

PAGE 3: Issue details

**Q9: Issue 1 (Optional)**

If the designed capacity of the existing site is full, then it should be closed and a new site further away from an ever expanding urban spread should be found

**Q10: Issue 2 (Optional)**

We have had two substantial fires at industrial scrap and waste sites in neighbouring Brooklyn/Laverton in recent times. This impacted on residential amenity and safety for suburbs surrounding the area. IF the existing Werribee facility expands, it will encroach too close to housing areas

**Q11: Issue 3 (Optional)**

*Respondent skipped this question*

**Q12: Issue 4 (Optional)**

*Respondent skipped this question*

**Q13: Issue 5 (Optional)**

*Respondent skipped this question*

PAGE 4: Endorsement and submission

**Q14: Do you object or approve the proposal?**

Object,

Please provide an explanation  
Too Big, Too Close to expanding residential areas.  
Facility now takes in waste from across Melbourne, not just the local area. Why should we become the dumping ground of the rest of the state.

**Q15: Additional materials (Optional)**

*Respondent skipped this question*
